

FLOW GRANDE

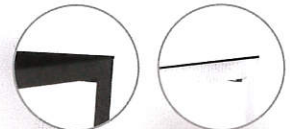

Aluminium cocktail table. Flow Grande is a true lightweight. What's more, you can easily flip it open or closed, unassisted. The various table-tops in our range, which are interchangeable, make this a super multi-function table, both indoors and out. And with our handy Trolley, you can easily move it around and store it.

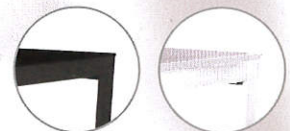

NEW!

Go for a more sophisticated look with our bamboo table top. It's also sturdier and more water-resistant than oak. It can also be used outside, but leaving it out there permanently, exposed to all the weather elements, is not recommended. For a true outdoor experience, choose a hardcore table top.

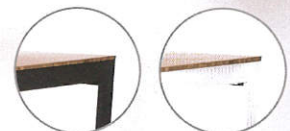

Hardcore black or white

Chipboard (9 colours)

NEW! Bamboo

X FACTOR

Our Flow collection is easily foldable in 1-2-3

TIPS X TRIX

All Flow models can be combined with several table tops. You can switch looks, from indoor to outdoor, in no time at all, and adapt the look of your table to suit the occasion.

FLOW DINNER

A lower and smaller version of the Flow Grande folding table. A great terrace table for outdoors or dining table for indoors. Or a combination of both, of course.
